Butler Multi

High Performance Hot Water Heater

www.wagenerstoves.co.nz

Wagener *Butler Multi*

The *Butler Multi* is a modern day multi fuel "chip heater" originally designed to deliver all of a households hot water requirements along with room heating. A number of options are available from a Dry model for room heating only through to the high performance WET model hot water heater. These *Butler Multi* WET models are fitted with our purpose designed "Lion" wetback system proven over many decades and with a choice of hot water output and room heating options. In addition the top surface is perfect for cooking winter soups and stews or just to keep the kettle boiling and the removable grill allows access to a high heat cooking surface when required.

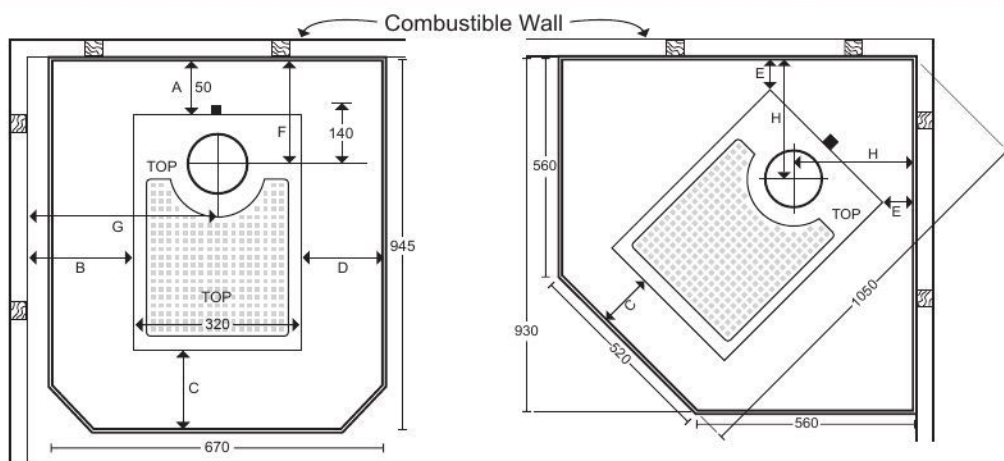

(NB It is very important to match options to your household hot water usage)

Features include:

- Multi Fuel capable
- Efficient long burn
- Cooking Surface
- Ashpan and grate
- Solid 5mm steel construction
- Compact space saving design
- Low clearances
- "Lion" Wet Back options
- High Temp paint finish in black
- 2 Base heights (770 or 910mm)
- 380mm deep brick lined firebox
- Removable baffle for easy cleaning
- Requires ash hearth floor protector only

Installation Clearances

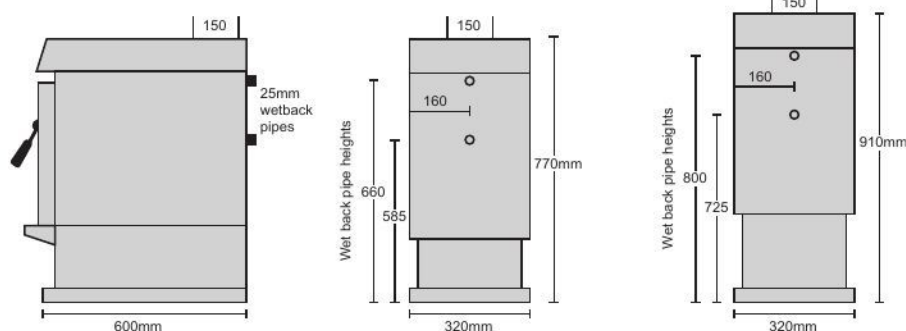

AS/NZ Standard 2918:2001

Estimated Hot Water Output 6kw and Room Heating 8kw depending on fuel quality. Dry & 2kw see separate spec sheet.

Minimum clearance to Combustible Surfaces	A	B	C	D	E	F	G	H
With double stainless steel Flue shield to unprotected wall	50mm	50mm *(25mm)	300mm	175mm	25mm	190mm	210mm *(185mm)	240mm
As above 12mm Promina Board spaced 25mm of wall	37mm	37mm	Ash Hearth Floor Protection must extend under the stove and forward 300mm extending 200mm either side of the door opening		* 1. One side wall clearance can be reduced to 25mm by rotating the flue shield 45 deg 2. Bench height side wall only (not above top of heater) clearance 25mm.			
As above with sheet metal any type 0.5mm or thicker spaced 25mm off the wall.	25mm	25mm						

Other screening materials are available and clearance factors can be calculated to the AS/NZS 2918:2001. Please ask your retailer or contact Wagener Stoves if you need further advice.

6kw Wet Model

Our flagship high performance *Butler Multi* designed for power savings and self sufficiency, delivering 6kw hot water, 8kw room heat and a cooking surface. This powerful hot water heater will deliver copious amounts of hot water for those with a high demand.

2kw Wet Model Option

This model gives an estimated 12kw room heat and 2kw hot water and is for those requiring more room heating and less hot water.

Note: Must be fitted to Dry Model specifications.

Dry Model Option

The *Butler Multi* is also available without a wetback as a 14kw Dry Model. It is particularly suited to those who enjoy the modern compact design of the Butler Multi but do not require hot water production. Note: Must be fitted to Dry Model specifications.

Enduring Quality & Design

The *Butler Multi* is New Zealand designed and handcrafted using only the best quality materials with a special High Temperature metallic black paint finish.

Warranty

The *Butler Multi* firebox is covered by a 5 year warranty (Please refer to Installation & Operating Instructions for full details).
